

Overseas Volunteer Opportunity – Malawi Index-based actuary

WHERE: Malawi

START DATE: August 2018. Exact timing to be negotiated with the successful candidate

DURATION: 50 days

REPORTING TO: Program Manager for Malawi

DEADLINE: Open until filled

Note: *This is a voluntary assignment. Domestic and international economy airfare, ground transport, visa, travel insurance, out of country accommodation, and a meal/incidental allowance will be covered by CDF Canada. Applicants must be a Canadian citizen or a permanent resident.*

BACKGROUND:

The INVEST Co-op program seeks to improve the economic well-being of small producers in Malawi, Peru, Mongolia and Indonesia. Through an integrated co-operative approach, the program will benefit producers by increasing production and productivity, increasing access to markets, and increasing access to financial services. The program will also focus on building the capacity of local co-operatives and working with governments to create an enabling environment for co-operatives to do business.

The INVEST Co-op Malawi Project seeks to improve the economic wellbeing of 50,000 small producers (Soya, ground nuts, beans, and maize). Through an integrated co-operative approach, the program will benefit producers by increasing production and productivity, increasing access to markets, and increasing access to financial services. CDF Canada is also proposing to partner with local agricultural, finance and insurance co-operative companies to introduce agricultural insurance products to these farmers to help them manage their risks. It is believed that offering insurance through an integrated co-operative model will lower risks, administration costs, and claim processing times.

The project partner in Malawi is the Malawi Union of Savings and Credit Cooperatives (MUSCCO) which is the apex organization for Savings and Credit Co-operatives in Malawi. MUSCCO provides training, liquidity management, representative and advocacy services to its member organizations to improved financial, management and governance capacity. MUSCCOs aim is to improve financial access to the underserved communities of Malawi.

ABOUT THE ASSIGNMENT:

The index-based actuary will provide the underlying analysis for the pricing of agricultural (input) insurance for soy and corn farmers in Malawi. The actuary will analyze data (to be provided by CIC and CDF Canada), provide pricing studies, document critical issues, assumptions and methodologies supporting the pricing recommendations. The actuary will work with the MI team of INVEST project and the technical staff of CIC Malawi and Kenya.

APPLICATION PROCESS:

Please submit your resume and cover letter using the [volunteer information form](#). You must be a Canadian citizen or permanent resident. Successful candidates will be required to obtain a police-check from their local police/RCMP detachment. ***All applicants are thanked for their interest in CDF Canada; however, only those selected for an interview will be contacted.***

Co-operative Development Foundation of Canada

Co-operative Development Foundation of Canada (CDF Canada) is an international development charity that helps improve the lives of women, men, children and their communities through cooperatives. We envision a world where self-reliant communities flourish. CDF Canada is working with local partners in Africa, Asia, Latin America and in Eastern Europe to establish and grow community owned co-operatives that help people achieve more prosperous, self-reliant lives. For over 70 years, CDF Canada has been mobilizing financial resources, volunteers and knowledge – mostly from Canadian co-ops and credit unions – to make the world a better place. For much of that time, CDF Canada worked partners to help communities move toward prosperity and create more secure lives through community-owned cooperatives. For more information about CDF Canada, visit www.cdfcanada.coop
